

**THE BIG BANG IS ACTUALLY
A LEAP IN THE SIZE OF THE AETHERIC CELLS**

THE BREAK BETWEEN THE QUANTUM WORLD AND THE COSMOS

**THE EXACT POINT WHERE THE MEASUREMENT PROBLEM AND THE
COLLAPSE OF THE WAVE FUNCTION SEPARATES**

**THE ORIGINAL PURPOSE OF THIS ESSAY WAS TO DETERMINE THE
EXACT SIZE OF THE AMBIENT AETHERS WHICH IS VERY USEFUL INFO**

**IT HAS BECOME CLEAR THAT THIS LEAP IN THE SIZE OF THE AETHERS
IS ALSO THE BIG BANG AND THE BEGINNING OF TIME!!!**

FREQUENCY AND THE ROOT OF GRAVITY!!!

THE EXACT POINT IS WHERE ANUs START TO CONGREGATE IN SIXs/7 INSTEAD OF PAIRS/3. IT'S ACTUALLY AN EVENT THAT OCCURRED AUTOMATICALLY IN THE AETHERS DUE TO THE RULE.

ELECTRONS, QUARKS, PROTONS AND EVEN ATOMS ALL RUN IN PAIRS, WHICH MEANS THAT THEIR ANUs ALSO RUN IN PAIRS WITH A GAP BETWEEN THEM. THE GAP BEING AN EMPTY AETHERIC CELL – WELL WHAT WE WOULD CALL EMPTY, ACTUALLY THE GAP IS WHERE GOD'S DREAM IS.

LIKE THIS (&)()(&) I.E. ANU - GOD - ANU EACH IN THEIR OWN AETHERIC CELL

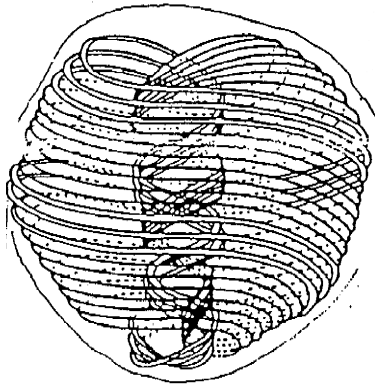

THE ANU CONTAINS VISHNU AND SHIVA BY THEIR EXACT DEFINITIONS OF RIGHT AND LEFT HANDED SPIN RESPECTIVELY. CHRIST AND GOD THE FATHER RESPECTIVELY. THE COMBINATION OF THE TWO EQUALS THE ANU

GOD / THE GAP IS THE HOLY GHOST OR BRAHMA / ALL THAT IS. THERE IS ALSO GOD, THE VOID, WHERE THE AETHER DOES NOT EXIST BEYOND CREATION.

THIS IS ALL GOING TO LEAD UP TO THE BIG BANG – A REVELATION THAT WAS NOT THE ORIGINAL INTENTION OF THIS ESSAY.

ALL THINGS WANT TO PAIR UP AS A ROOT NATURE AND THIS ESPECIALLY TRUE IN THE QUANTUM:

<http://www.sciencedaily.com/releases/2011/05/110505111942.htm>

IN FACT, THE ENERGY IN THE ANU RUNS IN PAIRS – IT IS A FUNCTION OF THE DNA DOUBLE HELIX. THE ROOT NUMBER OR DOUBLE IS TWO. EVERYTHING HAS ITS PAIR – HOWEVER, IN ORDER TO SEE A PAIR, THERE MUST BE A GAP, ALSO (THE TRIUNE IS ALWAYS THERE). GRANTED YOU CAN FIND SINGLET THINGS, BUT THAT IS NOT THEIR NATURAL STATE. EVEN SO CALLED MONATOMIC ATOMS LITERALLY WANT TO PAIR UP AS YOU’LL SEE SHORTLY.

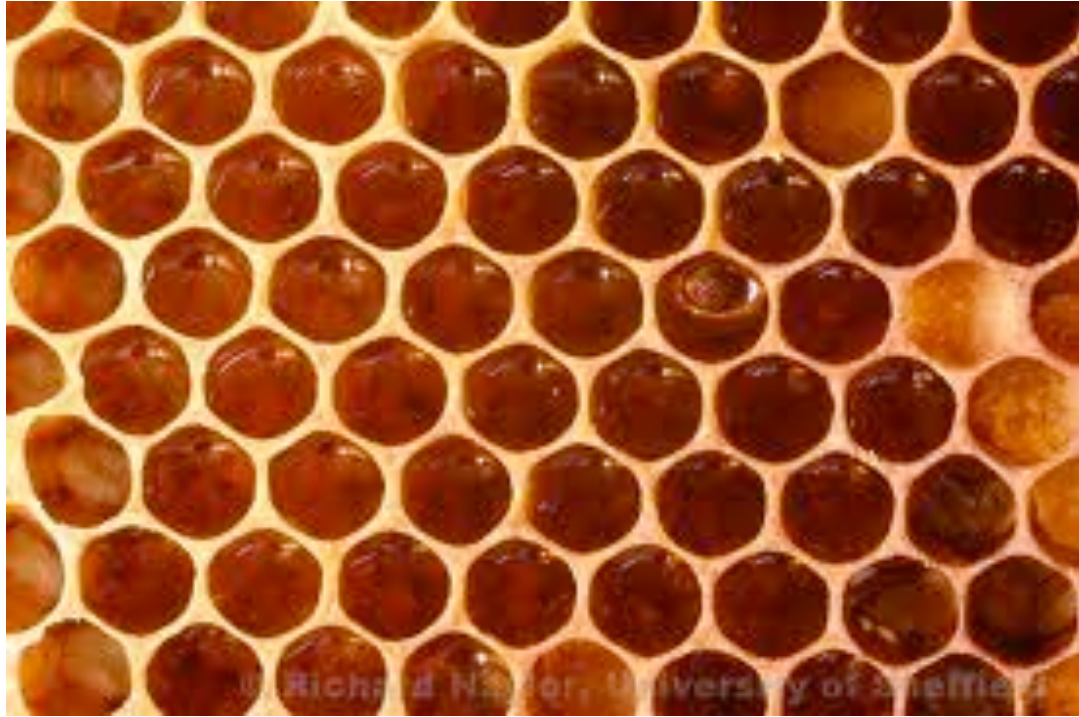

SEVEN COMES FROM THE HONEYCOMB AETHERS - JUST LOOK AT A DUSTY PLASMA - OR A SUN FLOWER - PICK ANY SINGLE CELL AND AROUND IT ARE SIX ANUs = SEVEN.

THIS IS THE REAL LEAP IN THE SIZE OF THE AETHERS THAT WE’VE BEEN LOOKING FOR. THIS IS WHERE WE HAVE THE BEGINNING OF LINEAL TIME, FREQUENCY, GRAVITY AND INERTIA.

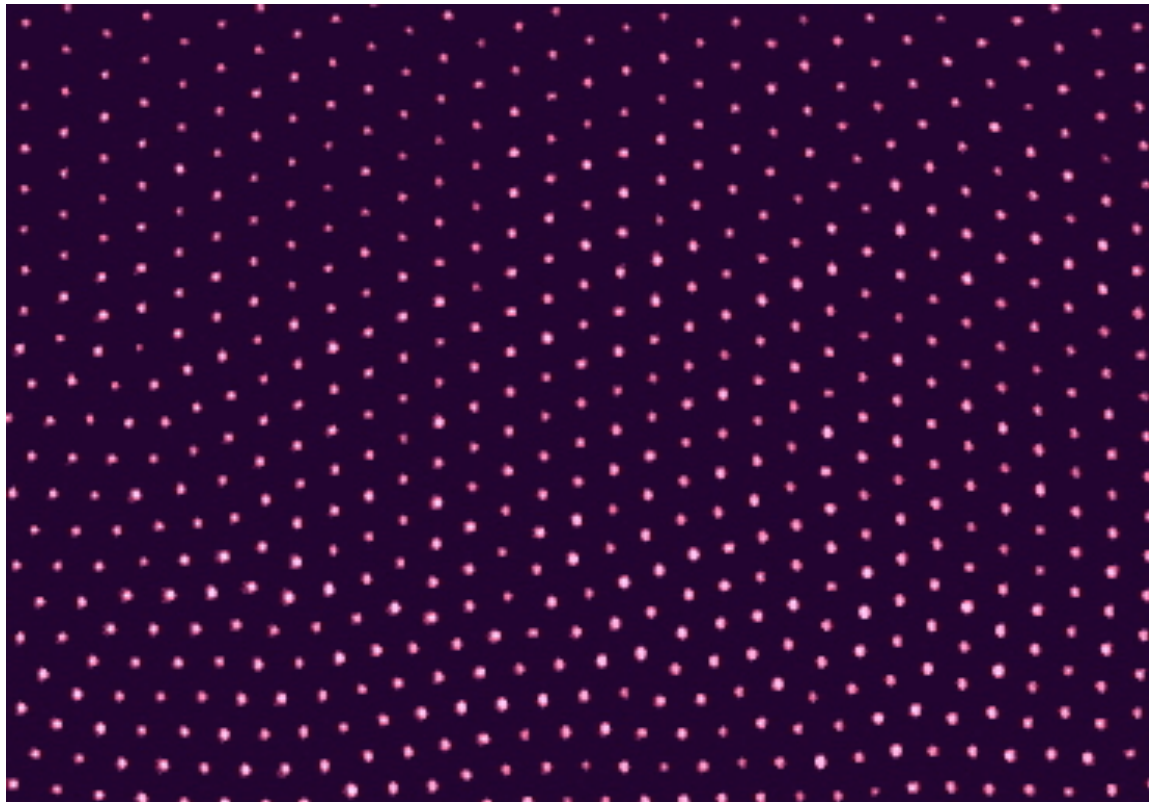

SEVEN IS THE NUMBER OF THE ARRAY IN EACH 2-D HONEYCOMB SLICE OF AN AETHER THAT CONNECT UP WITH THE ARRAY OF SEVEN CELLS IN THE ADJACENT AETHER, THENCE ANOTHER ADJACENT AETHER ETC. UNTIL THE SEVENTH ARRAY JOINS ON, THEN THAT WHOLE LINE HAS TO CIRCLE UP (DUE TO THE RULE) AND FORM A TORROID, WHICH IS EXACTLY WHAT HAPPENS WITH GEO MERKL’S CHONDRIANA (WHEN SEVEN OF THEM CONNECT TOGETHER, THEY CIRCLE UP AN FROM A NUCLEOTIDE / ABORIGINAL LIFE FORM). THIS IS IN ONE OF GEO. MERKL’S VIDEOS I.E. IT SHOWS THE SEVENTH CHONDRIANA CONNECTING TO THE LINE, WHICH THEN FORMS A TORROID, NATURALLY AND IMMEDIATELY, WHICH IS PROBABLY EXACTLY HOW THE TORROIDS FORM IN THE AETHERS – SIX IN A LINE, THEN THEY CIRCLE UP INSTANTLY WHEN THE SEVENTH ATTACHES.

LIKE TAKING A BOOK AND OPENING IT WIDE OPEN WITH THE BOOK COVERS TOUCHING EACH OTHER – THE PAGES SPLAY OUT LIKE A FAN – THEN REMOVING THE SPINE OF THE BOOK – CREATING THE DONUT HOLE.

THIS IS A FOUNDATIONAL AWAKENING, PLEASE.

DUSTY PLASMA HERE

THE SUN FLOWER - ALL THREE OF THESE THINGS ARE VERY NATURAL, OF COURSE. THAT'S WHO WE LEARN FROM - MOTHER NATURE.

THE AMOUNT OF TIMES THAT THE NUMBER SEVEN COMES UP IN NATURE, THE BIBLE AND HUMAN WORKS IS SIMPLY MIND BOGGLING - PLEASE LOOK AT THESE TWO WEB SITES.

<http://www.numberscience.plus.com/rev137.html>

<http://www.betemunah.org/seven.html>

WHAT STUCK IN MY MIND IS SEVEN WAVES IN A SET - SURFERS KNOW THIS – IT LIKE EVERY SET OF WAVES IS COMPOSED OF SEVEN – WE NOW KNOW THE REASON WHY.

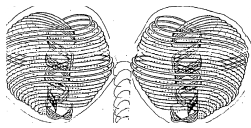

TORROID FORMATION IS THE MECHANISM OF CREATION VIA WHICH THE ANUs FORM AN IMAGE HELD IN THE GAP / BARDO / HOLY SPIRIT. THENCE BECAUSE THE FOUNDATIONAL NUMBER OF A TORROID IS

SEVEN – THEN WE SEE SEVEN MANIFESTING IN THIS CORPOREAL REALITY ENDLESSLY. VERY STRAIGHT FORWARD.

THIS IS SIMILAR TO THE 2-D NATURE OF DNA, WHICH IS USED TO MAKE FLAT NANO PLATELETS, WHICH OCCUR **SPONTANEOUSLY** IN THE PRESENCE OF DNA. DITTO WITH SEVEN, BECAUSE IT IS THE FOUNDATIONAL NUMBER OF THE TORROIDS, THENCE ITS RHYTHM IS **SPONTANEOUSLY** REPEATED THROUGHOUT NATURE.

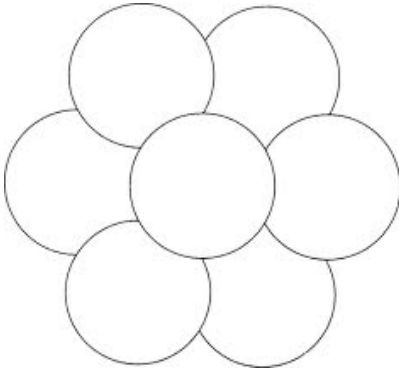

THE LEAP IN THE SIZE OF THE AETHERS:

AS THE UNIVERSE MOVES FROM SOVERIEGN GROUPS OF TWO ANUs (AND THEIR ATTENDANT GAP = THREE), TO SOVEREIGN UNITS OF SEVEN, THIS IS WHERE THE LEAP IN THE SIZE OF THE AETHERS OCCURS THAT WE'VE BEEN LOOKING FOR.

IN 2-D THIS IS ONE UNIT, (INCLUDING THE GAP BETWEEN THEM, WHICH IS NOT SHOWN). THIS UNIT IS HELD TOGETHER BY ANOTHER ANU THAT IS JUST THE RIGHT SIZE FOR THESE TWO TO FIT INSIDE OF. THAT TOP ANU (HIGGS BOSON) HAS TO HAVE AN AETHERIC FIELD THAT IS ITS ENVIRONMENT (A 2-D HONEYCOMB).

THE SAME THING OCCURS FOR THE SOVEREIGN UNITS OF SEVEN

THEY MUST BE HELD TOGETHER BY A TOP ANU. (DITTO YOUR BODY, THE AURA IS A COLLECTIONS OF ANUs THAT ACTUALLY BUILDS US – SEE “GENETIC LOGIC” AND “THE ORIGIN OF LIFE”). THE TOP ANU HAS TO HAVE A 2-D AETHERIC HONEYCOMB REALM THAT IS MUCH LARGER THAN THE ONE THAT SUPPORTS THE SMALLER SOVERIEGNS OF 2/3.

THUS, THERE HAS TO BE A LEAP IN THE SIZE OF THE AETHERS. OK?

THE SAME EXTENDS TO THE TORROID – IT MUST HAVE ITS OWN ANU, WHICH MERGES WITH THE OTHER ANUs AS THE TORROIDS GET TOGETHER.

THUS, YOUR BODY IS THE MERGER OF A VERY LARGE NUMBER OF ANUs THAT INCLUDE ALL OF YOUR IDEAS, EXPERIENCES, OPINIONS AND BELIEFS, EACH OF WHICH IS MADE MANIFEST BY AN ANU THAT HOLDS ALL OF THE INFO THAT BUILDS THAT THING – ALL THINGS ARE BUILT BY IDEAS/ANUs – THEN DESTROYED AND REBUILT THE NEXT MICROSECOND AS WE FLY THRU THE AETHERS.

GRAVITY, FREQUENCY, TIME & INERTIA BEGIN

TORROID FORMATION (AND THE ATTENDANT LEAP) IS WHERE WE HAVE THE BEGINNING OF THESE ELEMENTAL ENERGIES – MANIFEST IN THIS ORDER:

1. GRAVITY (OCCURS FIRST WHEN THE ANUs START SHARING INFO),
2. FREQUENCY (PRODUCED BY THE TORROID),
3. LINEAL TIME (AS A FUNCTION OF FREQUENCY – WE HAVE NO MATH AS YET) AND
4. INERTIA (DEMONSTRATED BY WAVES CARRYING ON WITHIN THE AETHER).

HERE WE HAVE A QUOTE FROM DAVID HUDSON'S WORK:

Transition Group Elements

Atom Clustering and The Monoatomic State

Most atoms cluster in groups of at least two or more atoms. However, the transition group elements, because of their unique properties, can be found already existing, or can be created and are able to remain, in a **stable single atom state**. This is achieved by having no nearest neighbor closer than four angstroms and, therefore, by not being able to chemically bind with other atoms. This is called a "monoatomic" state.

In this state, these atoms **interact in two dimensions**, BECAUSE THEIR ENVIRONMENT IS A 2-D AETHER in a unique continuous linear movement between a strong repulsive force when close enough to each other, and a strong attractive force when moved apart at a certain distance **THEY WANT TO PAIR UP**. Only when the repulsive force is overcome, will these atoms aggregate to form a metallic union.

In metals, during the process of going from a many atom state to a **monoatomic state**, there is a disaggregation of the metal-metal bonds and a loss of the properties characteristically assigned to the description of a metal. Different transition elements have different critical atom cluster size which determine their metal characteristics and behavior. These characteristic physical properties are lost at different rates depending on the element involved. (For example, the critical cluster size for rhodium is five atoms; for iridium it is nine atoms.

THIS IS THE POINT WE ARE LOOKING FOR – WHERE THE ARRAY OF SEVEN OCCURS AND THUS THE LEAP IN THE SIZE OF THE AETHERIC CELLS.

Two or more atoms, up to thirty-three, of the same transition group element, when clustered together, are called "metal-metal" bonded. In these cluster sizes, they can not be called truly metallic. It takes a twelve atom cluster before they become electrically conductive. It takes thirteen atoms for their true metallic properties to begin to appear. It takes a cluster of thirty-three atoms before they become fully metallic, and will grow all by themselves. At thirty-three form a "face

center cubic", a first basic growth structure of three dimensions solidly formed like a cube. In all these quasi metallic and fully metallic states, the atoms interact in three dimensions.

In the monoatomic state, they are referred to as non-metallic and they interact in two dimensions. DUH

In the monoatomic state, these elements have unique and consistent behavior. This is their true elemental state.

SO:

ELECTRONS, QUARKS AND SINGLET ATOMS / ANUs RUN IN PAIRS AND THEY REMAIN IN 2-D AS SUCH.

3-D COMES ABOUT WHEN THE ANUs FORM ARRAYS OF SEVEN THAT MIRROR OFF IN THE AETHERS AND FORM TORROIDS.

SO, AS WE ARE TRYING TO FIGURE OUT WHERE THE QUANTUM LEAP IS FROM PAIRS TO THE ARRAY OF SEVEN OCCURS. THERE HAS TO BE AN OBVIOUS DEMONSTRABLE EXAMPLE AND THERE IS:

WHEN ONE DISAGGREGATES METALS THERE COMES A POINT WHERE THEY LOOSE THEIR "NORMAL" PROPERTIES. - IN THE CASE OF COPPER THAT OCCURS AT 100 ATOMS VS 98 I.E. A QUANTUM OF 100 ATOMS STILL HAS ALL OF THE PROPERTIES OF COPPER, WHEREAS A QUANTUM OF 98 DOES NOT. DITTO ALL OF THE TRANSITION ELEMENTS AS PER HUDSON'S WORK ABOVE. Not sure about the exact number of the copper atoms – Hudson, I think, used 100 & 99 as examples not exact numbers.

THEREFORE, WE HAVE FOUND THE LEAP FROM TWO ANUs TRAVELING TOGETHER TO AN ARRAY OF SEVEN CREATING TORROIDS / FREQUENCY / 3-D. TORROIDS CREATE FREQUENCY – THE TESLA COIL IS A TORROID – THE TESLA COIL CREATES AND BROADCASTS ELECTROMAGNETIC FREQUENCY.

THE CELL SIZE OF THE AETHER MAKES A LEAP AT THIS POINT. AND COPPER GIVES US THE APPROXIMATE SIZE OF THAT I.E. THE SIZE OF THE 98 ATOM QUANTUM DOES NOT EXHIBIT THE NORMAL PHYSICAL PROPERTIES OF COPPER – THUS, THAT CLUSTER IS NOT IN THIS 3-D REALM AND STILL EXISTS IN A 2-D REALM.

SIZE WISE IT'S LIKE THIS – A HUMAN IS NOT THEIR BODY, THEY ARE ACTUALLY THEIR ANU / AURA DITTO THE QUANTUM OF COPPER ATOMS IS ACTUALLY MANIFESTED BY AN ANU, THE SIZE OF WHICH IS ABOUT ONE THIRD LARGER THAN PHYSICAL SIZE OF THE CLUSTER OF 98 ATOMS. THE 98 ATOMS HAVE TO HAVE AN ANU AROUND THEM – THE INFORMATION THAT ACTUALLY FORMS THE CLUSTER OF COPPER IS IN THE ANU. JUST AS IT IS WITH YOUR BODY – THE INFORMATION THAT QUITE LITERALLY MAKES YOUR BODY IS IN YOUR AURA / ANU. THIS IS WELL PROVEN IN THE GENETIC LOGIC ESSAY.

THEN THE AETHERIC CELL IN WHICH THAT ANU RESIDES IS ABOUT 10% LARGER STILL.

OK?

NOW ALL THINGS GROW – DUE TO THE RULE – LIKE ATTRACTS LIKE THE ROOT OF WHICH IS, “I AM THAT I AM”. IT IS CALLED GRAIN GROWTH IN MECHANICS OF MATERIALS.

<http://blog.hasslberger.com/docs/GRAIN-GROWTH.pdf>

SO, THE MOMENT ONE GROWS FROM 98 TO 100 COPPER ATOMS THE ANU THAT SUPPORTS AND MANIFESTS THE LARGER CLUSTER OF ATOMS NO LONGER FITS IN THE SMALLER AETHERIC CELL AND IT MAKES THE LEAP INTO 3-D

AT THIS POINT I HAVE TO REPEAT WHAT HUDSON FOUND:

Two or more atoms, up to thirty-three, of the same transition group element, when clustered together, are called "metal-metal" bonded. In these cluster sizes, they can not be called truly metallic. It takes a twelve atom cluster before they become electrically conductive. It takes thirteen atoms for their true metallic properties to begin to appear. It takes a cluster of thirty-three atoms before they become fully metallic, and will grow all by themselves. At thirty-three form a "face center cubic", a first basic growth structure of three dimensions solidly formed like a cube. In all these quasi metallic and fully metallic states, the atoms interact in three dimensions.

SPECIFICALLY, **At thirty-three form a "face center cubic"**, WHICH, OF COURSE, FITS PERFECTLY WITH THE ARRAY OF ANUs NEEDED TO BUILD 3-D MATTER, WHICH **will grow all by themselves.**

ANOTHER ASPECT AS OF MATTER – IT GROWS!!!! AS DISCUSSED HERE BY DR. MARCEL VOGEL

<http://www.youtube.com/watch?v=iZjCro4t0vk&feature=related>

THE WAY THINGS GROW IN 3-D IS VIA AN UNDERLIEING ORGANIZATION OF TORROIDS FORMED BY ARRAYS OF ANUs THAT MIRROR OFF IN THE AETHERS. THESE TORROIDS FORM DUE TO THE RULE. PRETTY SIMPLE REALLY

AND THAT IS WHERE AND WHY WE HAVE THE BIG BANG. FURTHER:

FORMATION OF THE TORROIDS HAS TO BE SUPPORTED BY AN ANU / IDEA / IMAGE, WHICH HAS TO BE CONTAINED IN AN AETHER. DITTO CLUSTERS OF TORROIDS ARE SUPPORTED BY AN ANU, WHICH HAS TO RESIDE IN AN AETHER.

THEREFORE, WHEN GOD HAD THE FIRST IDEA / WORD, / OOO MMMM THEN BOTH THE LARGER ANU AND AETHER HAD TO FORM SIMULTANEOUSLY. **BANG**

THERE'S A LOT MORE TO THE BIG BANG THAN THEY HAVE EVERY POSTULATED. AND, WE'VE NOT YET DISCUSSED THE PHASE ANGLE, BUT WE WILL.

FIRST WE'LL THROW THIS LITTLE DITTY IN:

TORROIDS OBVIOUSLY CLUSTER ACCORDING TO THE FIBONACCI SERIES – NOT THE GOLDEN MEAN.

THUS THE AETHERS THAT SUPPORT THE 3-D UNIVERSE PROGRESS IN SIZE ACCORDING TO THE FIBONACCI SERIES, ALSO, WHICH MAKES IT ALL THE MORE IMPORTANT TO FIGURE OUT THE SIZE OF THE AETHER AT THIS LEAP FROM TWO ANU ARRAYS TO ARRAYS OF SEVEN. BECAUSE WE ALWAYS WANT TO BUILD THINGS THAT ARE IN HARMONY WITH THE AETHERS. HEY, LOOK, HONEY LASTS FOREVER – WHY?

THUS, IF YOU WANT TO LAST FOREVER, YOU HAVE TO COME INTO HARMONY WITH THE AETHERS:

http://blog.hasslberger.com/docs/THE_MATRIX_BREAKING_IN-3.pdf

THE REASON WE WANT TO KNOW THE EXACT SIZE OF THE AETHERS IS BECAUSE WE CAN THEN MAKE DEVICES THAT WORK EXTREMELY WELL WITHIN THE AETHERS - LIKE BUILDING FLYING PLATFORMS THAT WORK VIA GREBENNIKOV'S CAVITY STRUCTURE EFFECT, CSE, OR AN ASCENSION DEVICE THAT WILL HELP PEOPLE ACHIEVE ENLIGHTENMENT, WHICH IS WHEN THE BODY BECOMES ONE LARGE SUPER CONDUCTOR, WHICH IT IS HARD WIRED TO DO – THE ROOT SHAPE OF A SUPER CONDUCTOR IS THAT OF A HONEYCOMB.

SO, COMING INTO HARMONY WITH THE HONEYCOMB AETHERS IS ENLIGHTENMENT. ANOTHER REASON MAKING THIS IS A MAJOR SCIENTIFIC DISCOVERY.

http://blog.hasslberger.com/docs/THE_MATRIX_BREAKING_IN-3.pdf

I MUST SAY THAT MY FIRST ESSAY ON GRAVITY WAS WRITTEN BEFORE I KNEW FULLY ABOUT CAVITY STRUCTURE EFFECT. SCIENTISTS TALK ABOUT ANTI-GRAVITY BEING A NEW DISCOVERY, WHICH IS HILARIOUS BECAUSE ANTI-GRAVITY IS THE ABORIGINAL FORM OF ENERGY I.E. CONSCIOUSNESS / LOVE. WHEREAS, GRAVITY IS A RATHER MUNDANE 3-D ENERGY BY COMPARISON.

FURTHER PROOF, HERE DUANE, A ROCKET SCIENTIST WORKING FOR THE U.S. AIR FORCE, WRITES DR. TUCK, M.D.

Hello Tuck: I note that superfluid helium, which I have written about before, is in the quantum monatomic state. This video shows LIQUID He going through a solid glass wall like it wasn't there. This is one of the properties of monatomic liquids. So when you look at videos on the net of superfluid He, you are looking at the properties of monatomic matter, which is the essential state of all matter, its original high energy state. **When the atoms of your body are in monatomic form, you too can walk through walls.**

What is astounding about this video is that the narrator actually understands that this is the real state of matter, "what we are really made out of he says". He is amazingly observant for an earthling, for that is the nature of the ET sciences and what has been hidden from us. I note also that when the atomic motion stops at absolute zero, we apparently have fulfilled one of the conditions for making monatomic matter. Monatomic gold can be made by spitting gold on a very cold surface so it solidifies too quickly for the atoms to bond together as solid gold. So if you stop the atomic motion, which is the definition of absolute zero, then the atoms no longer bond together then for some reason, become surrounded by a

Meissner field, (REASON: THE MEISSNER FIELD IS THE ANU THAT FORMS THE ATOM) and exist independently of one another. Gold or oxygen powder in the white monatomic state is only a few degrees above absolute zero, although you cannot measure that temperature due to the Meissner field being impenetrable by our technologies. I put it on my tongue and it just liquefies into microscopic drops and is absorbed into my body, it is not the least bit cold on my tongue, although I could take a whole mouthful of it at almost absolute zero.

Duane...

<http://www.youtube.com/watch?v=9FudzqfpLLs>

FREQUENCIES LIKE TEMPERATURE ARE CREATED BY TORROIDS, OBVIOUSLY AT THESE COLD TEMPERATURES THE TORROIDS NO LONGER FORM. INTERESTING

NOW BACK TO THE DETAILS OF THE BIG BANG

FIRST THE VOID (LONLINESS), THEN THE INFINTILE CONSCIOUSNESS / GOD HERSELF, THEN THE "I AM THAT I AM" / THE RULE. JUST THINKING I AM THAT I AM CREATES A CIRCLE, THE ANOTHER CIRCLE, THUS THE FIRST AETHER AND LOVE (LOVE IS THE ENERGY THAT FORMS THE LINES OF THE AETHERS, BECAUSE GOD VERY MUCH LOVED HER CIRCLES OVER HER VOID OF LONLINESS).

THEN THE ANU FORMS INSIDE ONE OF THE AETHERIC CELLS DUE TO GOD NOTICING THE PASSING OF TIME, EVEN AN INFANT GETS TIRED OF PLAYING WITH BLOCKS – THUS, ANUS HAVE A SMALL TIME COMPONENT THAT CIRCULATES IN THE DNA PART OF THE ANU.

SO THE ANU CONTAINS THE INFO THAT MAKES EVERYTHING – JUST LIKE DNA CONTAINS THE INFO THAT MAKES ALL LIVING THINGS – AND THERE IS YOUR CLUE TO THE NEXT ASPECT OF THE ANU. THE ANU CONTAINS INFORMATION, A BIT OF TIME, IMAGES AND SEQUENCES OF EVENTS (MEMORIES, BELIEFS, KARMA). THE WAY THAT ANUs SHARE INFORMATION IS VIA THE ENERGY IN THEIR DNA CENTER – THUS, THE ANUs HAVE TO LINE UP WITH ONE ANOTHER. THIS IS IMPORTANT, BECAUSE IT LEADS TO GRAVITY, WHICH IS JUST SHARING INFORMATION.

THEN WE HAVE THE ORGANIZATION OF THE ANUs WITHIN THE AETHERS STARTING WITH PAIRS AND MOVING ON TO THE ARRAYS OF SEVEN. WHY DID THAT HAPPEN?

BECAUSE OF THE RULE WE ALWAYS HAVE GROWTH DUE TO THE RULE.

AS THE ARRAY OF SEVEN LINES UP TO MIRROR INTO THE ADJACENT AETHER THE ANUs HAVE TO BE ORIENTED TOWARD THAT AETHER I.E. THEIR CENTER HAS TO POINT TOWARD THAT AETHER INSTEAD OF THEIR OWN. IN ORDER FOR THE ANUs TO MIRROR INTO THE ADJACENT AETHER, THEY HAVE TO SHARE ALL OF THEIR STORED INFORMATION – THUS, THEY MUST POINT INTO THE ADJACENT AETHER.

THUS, THEY FLIP 90 DEGREES, WHICH IS THE DIFFERENCE IN THE PHASE ANGLE BETWEEN THE ELECTRIC AND MAGNETIC COMPONENTS THAT ULTIMATELY CAUSES OUR "HARD" CREATION IN THIS 3-D REALM.

THIS SHARING OF INFO BY THE ANUs INTO AN ADJACENT AETHER IS THE ROOT OF GRAVITY.

RE: THAT THE ANU FLIPS 90 DEGREES WHEN IT MIRRORS INTO THE ADJACENT AETHER.

WHY EXACTLY DOES IT DO THAT? WHERE DOES THE ANU STORE INFORMATION / MEMORIES / SEQUENCES OF EVENTS / IDEAS / ALL INFORMATION INCLUDING PRE-EXISTING INFO?

WELL WHERE DOES THE DNA STORE ALL OF ITS INFO? ANSWER: IN THE DNA CENTER VIA THE SEQUENCES OF CROSS LINKS AND VIA IMAGES – DITTO THE ANU.

THEREFORE, WHEN THE ANU MIRRORS INTO AN ADJACENT AETHER IT HAS TO LINE UP - POINT AT THAT AETHER, SO THAT THE INFO CAN ALSO MIRROR ACROSS. THUS, THE PHASE ANGLE CHANGES.

THIS AFFINITY FOR THE ADJACENT AETHER LEADS TO GRAVITY AND THE BIG BANG – CRYSTAL CLARITY – NO MYSTERY. SIMPLE AND LOGICAL. THIS CONCLUSION IS FURTHER SUPPORTED BY

IT IS EXACTLY LIKE THE SCHAUBERGER PIPES - WHICH CAUSE WATER OR AIR TO CONDENSE I.E. BECOME 2-D VIA CREATING A DOUBLE SPIN (THE ANU HAS TWO SPINS), THUS, WHEN A NEWLY FORMED ANU OF WATER LINES UP WITH ITS NEIGHBOR AS A RESULT OF THE 90 DEGREE FLIP - THEN THE NEW ANU LITERALLY SUCKS INFO. FLUIDS ARE LITERALLY SUCKED THROUGH SCHAUBERGER'S PIPES. NOW WE KNOW WHY.

THUS GRAVITY, LINEAL TIME, FREQUENCY, INERTIA AND THE BIG BANG AUTOMATICALLY MANIFESTS DURING THIS EVENT WHERE THE ANUs MIRROR OFF AS ARRAYS OF SEVEN VS THE PAIRS THAT WE OBSERVE IN THE QUANTUM.

THE ANU IS A QUANTUM OF CONSCIOUSNESS THAT AUTOMATICALLY SHARES ALL OF ITS INFO WITH ITS NEIGHBORS. SO, AS CONSCIOUSNESS EXPANDED ITS IDEAS EVOLVED. SOMEBODY SHOULD TELL DARWIN I.E. THAT EVOLUTION IS A FUNCTION OF NEW IDEAS, NOT NATURAL SELECTION.

AS PROVEN IN THE "MEMORIES ARE MADE OF THIS" ESSAY – MEMORIES ARE ANUs – DITTO IDEAS, BELIEFS, OPINIONS, AND KARMA. <http://blog.hasslberger.com/docs/MEMORIES.pdf>

THEREFORE, THE WORD OR THE OOMM STARTED AS AN ANU – TORROIDS MADE OF SMALLER ANUs HAD TO HAVE FORMED WITHIN THIS OOMM ANU SIMPLY BECAUSE FREQUENCY STARTS WITH A TORROID.

WHICH GIVES RISE TO AN INTERESTING THOUGHT – THE FREQUENCY OF SOUND MAY BE A CLUE AS TO THE SIZE OF THE LEAP IN THE AETHERIC SIZES.

ALSO, AS FREQUENCIES GOT SMALLER, THEN TORROIDS HAD TO FORM IN THE SMALLER AETHERS CAUSING A BLURRING OR GREY AREA BETWEEN THE PAIRS AND ARRAY OF SEVEN LEAP.

SO THAT'S ABOUT IT:

THERE HAS TO BE AN INCREASE IN THE SIZE OF THE AETHERS AT THE POINT WHERE THE FIRST SOUND OCCURRED.

THIS POINT IS THE BEGINNING OF THE BIG BANG, LINEAL TIME, FREQUENCY, INERTIA AND GRAVITY.

YOU ALL NEED TO SORT OUT THE EXACT SIZES OF THE AETHERS – IT'S IMPORTANT.

BLESSINGS,
