

ORGONE - HOW TO MAKE IT

LINKS AND DISCUSSION

THE MOST IMPORTANT INGREDIENT IS LOVE - ACTUALLY SAYING I LOVE YOU TO THE ORGONE DEVICES EVERY DAY. JUST LIKE DR. EMOTO HAS PROVEN TO US - SIMPLY SAYING I LOVE YOU WORKS.

DISCUSSION

THE SIZE IS ALL IMPORTANT - WE WANT TO WORK WITH THE AMBIENT AETHERS, THUS FIVE INCHES IS THE SIZE OF A LARGE HUMAN HEART.

Warning: do not use other metals than iron for orgone devices

Hi Mike and Duane, DUANE IS AN ACTUAL ROCKET SCIENTIST

I came across the posting below re:metals for orgone devices. So now I feel confused about what metals to use. Please comment on choice of metals.

DUANE SAYS:

This also contains a reference to Dr. DeMeo's work, who has continued Wilhelm Reich's research, so I would take this seriously.

WHEREAS, ROGER IS A PhD PERSON WHO REALLY TESTS AND DOES THE EXPERIMENTS HIMSELF - USING FIRST ONE THEN ANOTHER METHOD = REAL SCIENCE.

Well, Mike, although other metals, even Al, certainly work to produce the energy, charge water, increase plant growth, etc., I have for some time had a suspicion that some "homeopathic" effects may be exerted by the materials used. Thus for human use I have been avoiding synthetic resin (using carnauba wax instead) and using steel wool as the metal. But of course a lot of homeopathic medicines are based on highly toxic materials, so maybe any toxic effects are limited to their gross chemical action. However, I don't have any evidence either way.

I SAY - ADD LOVE, IT WILL CHANGE THE SPIN ENTIRELY MAKING EVERYTHING BENEFICIAL.

AND DR. EMOTO'S WORK - ITS SO SIMPLE

<http://www.youtube.com/watch?v=uPdi-qF79I0>

HUMANS HAVE A SIMPLE CHOICE - LOVE OR LOOSH

TO SAVE THE PLANET IF A VERY LARGE NUMBER OF THE PASSENGERS ON SPACE SHIP EARTH WERE MEDITATING EVERY DAY AND BUILDING ORGONE DEVICES - WE'D HAVE A BOTANICAL GARDEN EVERY WHERE.
