

THE ORIGIN OF LIFE

What is that certain something that sparked life to begin?

What is the real origin of life? We will answer this question. But, first – how far has science gotten?

FIRST MAIN STREAM SCIENCE:

According to Robert Shapiro in his article published by Scientific American (June 2007) the title of which is “A Simpler ORIGIN for LIFE”; Summarized: “The sudden appearance of a large self-copying molecule such as RNA was exceedingly improbable. Energy-driven networks of small molecules afford better odds as the initiators of life.”

In other words, there must be some chemical compound that is smaller than RNA that can replicate itself and thus be classified as a living thing – but, science does not yet know what that smaller chemical compound is. So, the net result is a surmise – a theory. That’s it.

There are two schools of main stream thought as to the origin of life – one holds that some large molecule developed the ability to replicate itself and the other maintains that a collection of molecules could have developed the ability to create energy or absorb energy and thus maintain their organization i.e. a metabolism.

The cowboy, this writer, would suggest that the original form of life must be able to replicate and have thoughts, feelings & emotions, as well as short and long term memory i.e. be sentient. We shall see what the smallest thing that lives is.

NEXT: THE DISCOVERIES OF SUPPRESSED SCIENCE (with regard to the smallest living thing – and just a few – it would take several volumes to discuss all of the good science that has been suppressed):

Gaston Naessens (<http://www.cerbe.com/index2.html>) discovered somatids which to him seem to be the smallest individual living thing. For sure the somatids are very healing – I witnessed the regeneration of a lady’s lungs that had been 80% eaten away by emphysema – this lady was an M.D. and a forensic scientist for Scotland Yard. She used the somatids and George Merkl’s life crystals – more on Dr. Merkl later.

Also, Antoine Bechamp, he discovered tiny living units that he called, microzymas. Dr. Bechamp’s biggest problem was that his research and discoveries ran counter to those of Louis Pasteur, whose germ theory still is the accepted science of disease.

In all three cases, Bechamp, Naessens, and Merkl their discovered tiny living units are pleomorphic, meaning that they change their shape and morph into different organisms. This ability to shape shift is hotly contested by main stream science, but there have been an enormous number of researchers confirm the fact. It takes very little reading in both

Naessens web site as well as that of Bechamp (<http://www.bechamp.org>) to arrive at extremely simple proof that any one can replicate i.e. via the growing of yeast.

This also extends to the concept of alchemy i.e. changing base elements from one atomic structure to another without a chemical reaction – the famous conversion of lead into gold is one example. My personal favorite is the fact that a crop of corn will have 10 times more magnesium than what has been leached from the soil – the magnesium just seems to manifest. Ditto, the calcium around a chicken's eggs – they don't eat calcium – most of what free range chickens eat is mica / silicon, which they are seemingly able to convert to elemental calcium in their bodies. This is called biological transmutations ala Louis Kervran, a Nobel Prize nominee his paper written circa 1960 (<http://educate-yourself.org/zsl/zslclouiskervran23jul02.shtml>). He was only confirming work started in 1799 i.e. the observations of plants creating the minerals they need to live.

The point here is that living things do, in fact, manufacture the things that they need to live. Therefore, the one basic precept of main stream science that a living thing must metabolize i.e. eat other things, is very obviously wrong. Which is what Naessens said about his somatids – they do not need to eat or even absorb energy from other sources, they make all their own – totally self sufficient.

Further, the fact of pleomorphism supports the observations of Naessens, Merkl and Bechamp that their tiny living units would band together and become larger living things – in all cases quite beneficial and useful living things. Now, we are talking easily repeatable observations that main stream science refused to even observe – despite the fact that all of these esteemed researchers offered all comers to see for themselves – many of which did and reported same only to be discredited. So, I say again pleomorphism is a fact – a real important fact – we did arrive at human development due to this ability of tiny living things to get together and become larger living things.

On the same subject – and, important to know – viruses are very tiny living things – they have the ability to morph / transmute – the way one virus differs from another is primarily via shape – thence their internal sequence, which is determined by the energy coming through their crystalline shell casings – their skins. Therefore, if you have any virus in your body – **you then have all viruses in your body** because they will morph to look like any example that is introduced to their environment. This is a combination of Bechamp's microzymas and Pasteur's germ theory i.e. Bechamp held that disease occurred spontaneously via morphism in the body whereas Pasteur postulated that germs from outside the body were the culprits – now we see that the combination of the two is correct.

This is important to our discovery of the origin of life for this reason: the introduction of a new idea into a living shape changing medium causes the new organism to manifest. So, we have to add another requirement to our smallest living thing i.e. the ability to shape change along with the last tenable precept of science – the ability to reproduce. But, far short of my requirements which include: short & long term memory, thoughts

feelings and emotions. So, I've set much higher standards than has science and we are going to arrive at that holy grail before the end of this essay!!!

Now, Naessens observed that his somatids were virtually indestructible, immortal, would replicate and morph. Since his somatids do amazing healings and since there are a great number of people who have observed his somatids themselves – then the somatid would seem to be a candidate for the origin of life. And, Naessens observed that the somatids had an innate intelligence, which fits nicely with my requirements. But, I disagree – the somatid is not the origin of life.

Next, Dr. Merkl's chondriana. In keeping with the first video presentation of Merkl's discoveries as confirmed by himself to me via the telephone – but, contrary to some of the things reported on his web sites (<http://www.rexresearch.com/merkl/merkl.htm>) – let me summarize his findings: George Merkl discovered cold fusion a very long time ago – at a time when nobody was interested in cheap energy. He noticed that the presence of light on the fusion reaction changed the reaction. And, that different kinds of light, inside or outside, made different changes to the reaction. So, he decided to study light. Eventually he found that light would condense into a living thing he called chondriana, which was also indestructible, intelligent and immortal. The chondriana would morph into larger organisms with ability to attack disease in the human body and to intelligently do what the body needed most – including rebuilding organs – a fact that he proved on his own body. And, a fact that I observed in the lady doctor who regenerated her lungs. So, we could say that Merkl's light (thence chondriana) is the origin of life – I mean, how much more fundamental can you get than light? But, I disagree – and so will you shortly.

THE ORIGIN OF LIFE:

I present to you the origin of life the ANU!!!

ANU is the first name of GOD in the ancient scriptures – it is also a verifiable energy form. The human aura from kirlian photos is shaped like the Anu.

From <http://www.aetherpress.com/book.htm> by Frank Meno the electron, which is obviously an Anu.

Please refer to my “Nested Aethers” and “Messages in Water” essays attached for further info on the Anu and how it was formed. Photons have this same shape and they are non-polar i.e. 2-D. In fact, photons are points of light – please read the attached essay “NEAR DEATH EXPERIENCES – FURTHER SUPPORT FOR THE ORIGIN OF LIFE”

The origin of life is the Anu, which resides in the aether of space / darkness. All things are conceived in darkness – this is a fact – the first form of God is Space and Space is female.

Now the creationists will disagree saying that consciousness is the origin of life, which is kind of true because consciousness came into being because of the rule, which also caused the aether – its just that the idea of life came along after the Anu was already there by default – it had been automatically / logically / **unconsciously** created within the aether via the rule “like attracts like” as established in several previous essays. There was never the conscious idea of the Anu – it just happened – God is – that’s it.

And, **even before the conscious idea of life**, the Anu was replicating itself within the aether creating the uniform field = living. The Anu is indestructible and immortal after all it is God. And, as established in the essay “MEMORIES AND KARMA ARE MADE OF THIS” the Anu is the repository of memory – thus, it has intelligence, thoughts, feelings, emotions, short and long term memory – in fact, its memory is perfect.

I think that the fact that the Anu is the origin of life is irrefutable.

For those of you that read my essays this conclusion is not surprising – sorry to drag you through the scientific slog. I was trying to write an essay that might get published, which is why lower case letters have been used. But, unfortunately it is necessary to lean on my previous writings in order to nail this one down.

NOW SOME SCIENTIFIC SNIPPETS THAT FURTHER SUPPORT THE ABOVE CONCLUSION. THIS WEB SITE IS GOOD:

<http://www.subtleenergies.com/ormus/tw/pyramids.htm> HERE’S A PHOTO FROM IT:

DUE TO THE RULE, LIKE ATTRACTS LIKE, IT IS IMPORTANT TO NOTE THAT SUCH SPIN ENERGIES HAVE TO SPIN BACK ON THEMSELVES CREATING AN ANU. AFTER ALL THE AETHER IS THERE – ALL ENERGY FORMS ULTIMATELY SPIN BACK ON THEMSELVES USUALLY IN AN UNSEEN MANNER – THEY HAVE TO DUE TO THE AETHER AND THE RULE.

NOW THE AETHER IS A FACT AS THE RUSSIAN SCIENTIST, DR. N. A. KOZYREV PROVED. AND, AS STATED IN THE “NESTED AETHERS” ESSAY YOU CAN TAKE A PICTURE OF THE WAY THE AETHER IS ORGANIZED. SO, ALL ENERGY PROPAGATED WITHIN THE AETHER ULTIMATELY RUNS INTO THE RULE AND ITS OWN AETHERIC CELL, WHICH FORCES THAT ENERGY BACK ON ITSELF.

16 March 2006

[DNA Shaped Nebula Observed At Center Of Milky Way](#)

Astronomers using the Spitzer Space Telescope have observed an astonishing double helix shaped nebula near the center of our Milky Way galaxy. The astronomers, writing in *Nature*, estimate the nebula to be around 80 light years in length and situated only 300 light years away from the massive black hole at the center of the Milky Way.

NOW WHY WOULD THIS NEBULA ORGANIZE ITSELF IN THE SHAPE OF DNA? AND THIS IS NOT THE

ONLY SUCH DNA SHAPED STRUCTURE IN SPACE. I WON'T REPEAT THE "SCIENTIFIC" THEORIES THAT HAVE BEEN POSTULATED TRYING TO EXPLAIN THIS – IF YOU WANT A GIGGLE YOU CAN EASILY FIND THEIR MUSINGS ON THE NET.

NOW PLEASE – THIS NEBULA IS 80 LIGHT YEARS LONG – A GIGANTIC DISTANCE OVER WHICH SOME FUNDAMENTAL FORCE HAS CAUSED THIS SHAPE TO MANIFEST. THAT'S THE CLUE I.E. A FUNDAMENTAL FORCE OF THE UNIVERSE HAS CAUSED THIS.

DRAWING FROM THE UNIFORM FIELD CONCEPT WE HAVE THESE PRECEPTS – IN THEIR PROPER ORDER:

SPACE – THE FIRST CAUSE
THE RULE – LIKE ATTRACTS LIKE
THE AETHER
THE ANU
AND, THE FRACTAL NATURE OF ALL THINGS CAUSED BY THE FIBONACCI SERIES LEADING TO THE GOLDEN MEAN, THE MANDELBROT SET AND THE JULIAN SET.

IT IS VERY EASY USING THESE FUNDAMENTAL FORCES TO COME UP WITH A REASON FOR DNA SHAPE OF THIS NEBULA – DITTO THE SEVERAL OTHER SUCH SHAPES ON THIS PLANET AND THROUGHOUT THE UNIVERSE.

I'D SUGGEST THAT THE SHAPE OF THE ENERGY IN THE NEARBY MASSIVE BLACK HOLE IS EXACTLY THE SAME AS THAT MIRRORED ONTO THIS NEBULA. LIKE ATTRACTS LIKE.

THESE THEORISTS SAY THE SAME I.E. THE UNIFORM FIELD IS THE BACK GROUND SCREEN EVERY WHERE. AND – LIKE ATTRACTS LIKE

<http://montalk.net/notes/the-etheric-origins-of-gravity-electricity-and-magnetism>

SO, WHAT CAN WE SAY FURTHER? WELL THE UNIFORM FIELD / THE AETHER IS THERE – OUT THERE AND EVERY WHERE. IN EVERY OTHER CELL OF THE AETHER THERE IS AN ANU – THE CENTER OF WHICH IS SHAPED LIKE DNA – AUTOMATICALLY CONSTRUCTED THAT WAY VIA A LOGICAL SEQUENCE OF ENERGETIC EVENTS. NOW THIS AETHER IS PRETTY MUCH STATIONARY – AS "THINGS" MOVE THROUGH IT THE ANUs DO THEIR JOB OF MANIFESTING THE THINGS WE SEE – WHAT EVER IT IS. THEY ARE ALWAYS SUBJECT TO THE RULE – MEANING THAT AS THE BEINGNESS OF THE NEBULA REACHES THEM – THEY IMMEDIATELY, IN NO TIME, REFLECT THAT IDEA.

NOW FROM MY GRAVITY & ANTI-GRAVITY ESSAY:

“SO, SERIOUS ANTI-GRAVITY, NOT ONLY DOES THE THING LEVITATE, BUT IT WANTS TO LEAVE THE PLANET IT SEEMS. OK – WHY?”

“... At full power of 30,000 volts, the lifter is roaring and a noticeable downward breeze is observed. Many physicists call it ‘ion wind’ and say that this is what causes the lifters to fly. ...

To analyse the air currents, Tim blew baby powder at the top of the lifter. The majority of the particulate cloud was drawn into the middle area of the lifter and then sucked downward. A kind of vortex was created at times ... I could see a cloud forming into an organized column beneath the lifter and then spreading out 360 degrees once it hit the work table surface.” QUOTES FROM NEXUS MAGAZINE

SO A VORTEX – MAYBE A NIELSON-OLSEN VORTEX WHICH SURROUNDS A HIGGS SUPER CONDUCTING VACUUM? IF YOU READ THE ARTICLE IN NEXUS, BRUCE SMITH ELABORATES ON NUMEROUS THEORIES BY GREY BEARDED PHYSICISTS LIKE HAL PUTTOFF, DR. JOHN J. RUSEK, AND JEAN-LOUIS NAUDIN, WHO HAS A WEB SITE SHOWING LOTS OF WORK ON THE LIFTER PHENOMENA <http://jnaudin.free.fr/lifters/main.htm> “

THE ENERGY BETWEEN THE PLATES OF THE CAPACITOR IS AN ENERGETIC NULL WHICH BECOMES STRUCTURED BY THE RULE AND THE SHAPE OF THE ANUs IN THE AETHER. WHY ELSE WOULD A VORTEX FORM IN A VOID? AND REMEMBER THAT DUE TO THE RULE THE ENERGY HAS TO CIRCULATE BACK ON ITSELF CREATING AN ANU.

SO, BACK THE NEBULA – IT IS GOING TO TEND TO BE STRUCTURED BY THE ANUs IN THE AETHER. THEN, IF THE VORTEX GENERATED BY THE ANTI-GRAVITY LIFTER IS AN EXAMPLE OF WHAT WOULD HAPPEN TO THE UNSEEN ENERGY IN THE BLACK HOLE – THEN WE CAN EASILY SURMISE THAT THE NEBULA IS MIRRORING THE ENERGY IN THE BLACK HOLE.

NOW IF YOU READ “SETH SPEAKS” BY JANE ROBERTS – HE TALKS ABOUT COORDINATION POINTS. THESE COORDINATION POINTS ARE JUST THE TINY BLACK HOLES IN THE AETHER, WHICH HAVE BEEN WELL SHOWN BY THE TWO EXPERIMENTS: “1776 EVAPORATIONS OF IRIIDIUM ATOMS ONTO A SUPER COOLED TUNGSTEN PLATE” AND THE “DNA PHANTOM EFFECT” (<http://www.rialian.com/rnboyd/dna-phantom.htm>). THERE ARE WITHOUT DOUBT GAPS IN THE AETHER I.E. TINY BLACK HOLES / COORDINATION POINTS THAT ARE SUPER CONDUCTING HOLES. AND, PRETTY MUCH WITHOUT DOUBT THE ENERGY (NON-VIBRATIONAL) THERE ORGANIZES ITSELF INTO A DNA VORTEX – THIS NEBULA IS POINTING THAT OUT TO US.

PROJECTING THAT ONTO THE ORIGIN OF LIFE EXPLANATION THAT WE ARE FORMING – WELL IT IS STILL OBVIOUS THAT THE ANU IS THE REAL ORIGIN OF LIFE – BUT, IT IS ALSO OBVIOUS THAT THE SHAPE OF DNA IS

FUNDAMENTAL TO THE SHAPE OF THE ENERGY OF SUPER CONDUCTANCE – SO IT NOT SURPRISING THAT DNA IS SUPER CONDUCTING – THE FACT THAT IT ORGANIZES THE PHOTONS IN THE PHANTOM DNA AFFECT IS PROOF OF THAT – PARTICULARLY SINCE ONLY PHOTONS WILL FLOW INTO A SUPER CONDUCTOR.

The DNA PHANTOM EFFECT: Direct Measurement of A New Field in the Vacuum Substructure

By Dr. Vladimir Poponin

<http://www.rialian.com/rnboyd/dna-phantom.htm>

Basically the DNA caused photons to organize in columns or rows – again!!! DNA is known to be super conducting. Since super conductors levitate – one can only conclude that the super conductors harmonize with the aether. Therefore, the super conductors have the same honeycomb structure as the aether – ditto the DNA.

PLEASE – THIS ALL KNITS TOGETHER QUITE NICELY

THEREFORE, THE DNA STRUCTURE OF LIFE IS A FUNDAMENTAL STRUCTURE OF ALL THINGS AND LIFE. THUS, ALL LIFE IN THIS UNIVERSE HAS A DNA STRUCTURE WITHIN IT IN SOME MANNER – SEEN OR UNSEEN. SO, THERE IS NO NEED FOR A SMALLER REPLICATING MOLECULE TO BE THE ORIGIN OF LIFE AS SURMISED BY MR. SHAPIRO ABOVE – IT SEEMS THAT DNA DOES SPONTANEOUSLY MANIFEST FOR GOOD REASON.

IN FACT, IT SEEMS THAT LIFE AUTOMATICALLY MAKES DNA – PROVIDED THAT IT HAS AN AETHERIC CELL IN WHICH TO DO SO:

M,

a little pointer for your research on life and its origin. Links an interesting article...

Sepp

To: ""Josef Hasslberger"

Subject: Spirals/Kozirev/plasma

Re my last mail, please try:

http://www.world-science.net/othernews/070814_dust.htm

This says of plasma:

Until now, physicists assumed that there could be little organization in such a cloud of particles. However, The Russian Academy's V.N. Tsytovich and colleagues found, using a computer model of molecular dynamics, that plasma particles can undergo

self-organization as charges become separated. This results in microscopic strands of solid particles that twist into corkscrew shapes, or helical structures. These helical strands are themselves charged and are attracted to each other.

Quite bizarrely, not only do these helical strands interact in a surprising way in which like can attract like, they also undergo changes normally associated with biological molecules, such as DNA and proteins, say the researchers. They can, for instance, divide, or bifurcate, to form two copies of the original structure. These new structures can also interact to induce changes in their neighbours and they can even evolve into yet more structures as less stable ones break down, leaving behind only the fittest structures in the plasma.

Compare this with what I said just after reading the Xmas 2003 edition of New Scientist:

"I had read in New Scientist that it had been discovered that blobs of plasma gas appear to be able to “communicate, replicate and grow”. Of course they can! It is clearly possible by the interchange of encoded helices.

Best regards

Robert F. Beck

OBVIOUSLY THE PLASMA IS A UNIFORM FIELD AND “LIKE ATTRACTS LIKE” THUS, THE ROOT NATURE OF THE ANU FORM IS IMPRINTED ON THE PLASMA.

Quantum phenomena in biology (THE QUANTUM IS A CELL IN THE AETHER – AND THE AETHERIC CELL CAUSES OR ALLOWS THE ANU / DNA TO FORM WITHIN IT – THAT’S IT – END OF STORY. THE PROOF IS PRETTY MUCH IRREFUTABLE)

Physicians and Scientists for Responsible Application of Science and Technology (PSRAST)

Already the eminent quantum physicists Fritz London and Niels Bohr suggested that quantum phenomena might be essential for life processes. During the last decade especially, increasing evidence is accumulating that indicate that this is indeed the case. Especially the experimental work of Garajev et al (see point 1 below) indicates that a radical reinterpretation of the regulatory mechanisms of DNA is required.

Below you find brief summaries of some interesting texts along with links to their sources.

1. Genetic code only half the story - DNA is a quantum mechanical biowave computer

Recent research has demonstrated that *electromagnetic signals are of key importance in the regulatory functioning of DNA* . Part of it is based on ultraviolet luminence creating *biophotons* that have been experimentally demonstrated to be able to enhance metabolic reactions thousandfold (1). Another aspect is an *electromagnetically mediated "language"* for communication between DNA and the cells. Actually laser light generated in DNA, experimentally demonstrated by **P.P. Garajev** (2),(3) is a key element in this information transmission system.

Excerpt from:

Gariaev P et al, "The DNA-wave Biocomputer" (3)

"...These assumptions produce a chromosome apparatus and fast wave genetic information channels connecting the chromosomes of the separate cells of an organism into a holistic continuum, *working as the biocomputer, where one of the field types produced by the chromosomes, are their radiations.* This postulated capability of such "laser radiations" from chromosomes and DNA, as will be shown, has *already been demonstrated experimentally in Moscow, by the Gariaev Group. Thus it seems the accepted notions about the genetic code must change fundamentally, and in doing so it will be not only be possible to create and understand DNA as a wave biocomputer,* but to gain from nature a more fundamental understanding of what information [Marcer in press] really is! For the Gariaev Group's experiments in Moscow and Toronto say that the *current understanding of genomic information i.e. the genetic code, is only half the story* [Marcer this volume]. "

CORRECT! NOW WHY? WHY IS THE DNA A BIOCOMPUTER? ANALOG COMPUTERS WORK DUE TO THE P N TRANSFER OF CAPACITORS – AS THE ENERGETIC INFORMATION PASSES THRU THE CAPACITANCE ZONE – THE ZONE AUTOMATICALLY PERFORMS THE CALCULUS FUNCTION OF INTEGRATION WHICH SOLVES FOR THE AREA UNDER THE CURVE I.E. DETERMINES THE POWER OF THAT WAVE FORM – THAT IS WHY COMPUTERS WORK.

AND, WE ARE QUITE SURE THAT A DNA ENERGETIC STRUCTURE FORMS IN THE VOIDS OF BLACK HOLES. THIS DNA STRUCTURE IS THE CENTER OF AN ANU – SUFFICE TO SAY THIS – IF YOU HAVE A DNA STRUCTURE THEN YOU HAVE TO HAVE THE REST OF THE ANU I.E. THE OUTER ENERGY SPIN AND THE AETHERIC CELL. LIVING CELLS ARE A PERFECT EXAMPLE OF DNA IN ITS OWN AETHERIC PACKET / CELL – DITTO THE HUMAN AURA THE ENERGY IN THE CENTER OF WHICH IS A DOUBLE HELIX, DITTO THIS UNIVERSE AND DITTO ALL QUANTUM PACKETS.

SO, THEY ARE SAYING THAT IF YOU HAVE A QUANTUM (AETHERIC CELL) ANYWHERE, THEREIN WILL FORM DNA AND THAT DNA IS A BIOCOMPUTER. IF YOU HAVE A VOID DNA WILL FORM BECAUSE THE VOID IS LIKE THE NULL CAPACITANCE FIELD AND THAT DNA WILL BECOME A BIOCOMPUTER – NOW YOU KNOW WHY.

AND HERE IS FURTHER PROOF THAT A QUANTUM – A SMALL PIECE OF ANY APPARENTLY HOMOGENEOUS FIELD (PROVIDED SAID FIELD IS IN AN AETHER OF THE APPROPRIATE SIZE) WILL AUTOMATICALLY CREATE LIFE:

Wilhelm Reich also found what he called "bions" which materialized in jars of distilled water out of thin air!!!

Comment

These experimental findings about DNA control of cellular processes mediated by electromagnetic/quantum mechanical mechanisms have not been considered by biotechnology researchers. They introduce important new elements that radically change our understanding of the workings of DNA.

Most importantly, they seriously undermine the present biotechnological dogma where DNA is treated as a micro-object that is "clipped" and "glued". In stead, so far completely unknown Quantum Wave aspects have been found to be involved that may radically change our understanding of what happens in genetic engineering.

This reveals another aspect of the great incompleteness of the knowledge of present biotechnology.

2. Quantum mechanics of the Acto-myosin molecule

Research indicates that quantum phenomena play a role in the contractile element of muscles, see [Quantum Biology](#). [AL]

Excerpt: "Quantum physics and molecular biology are two disciplines that have evolved relatively independently. However, recently a wealth of evidence has demonstrated the importance of quantum mechanics for biological systems and thus a new field of quantum biology is emerging... Matsuno argues that actomyosin functions as a heat engine (a device that converts heat energy into mechanical energy) that is able to maintain a constant velocity due to quantum mechanical coherence and entanglement."

NOW THIS MAKES THE UNIFORM FIELD OBVIOUS BECAUSE IT IS COHERENT.

3. "What is life? Are quantum states and processes at the core of living systems?"

[Articles by Stuart Hameroff and Paul Davis](#). Both discuss the possibility that quantum processes may be a common denominator for living systems. The noted experimental physicist Anton Zeilinger has also suggested that quantum effects underlie the living state. In a 1997 paper entitled "Quantum vitalism" for the Fetzer Institute journal "Advances: The Journal of Mind-body Health" I had suggested that, indeed, quantum processes were at the core of living systems, and relevant to health.

SO, SINCE ALL THINGS EXIST IN AND AS A RESULT OF QUANTUM PROCESSES – THEN ALL THINGS ARE ALIVE.

TREAT ALL THINGS AS GOD BECAUSE THEY ARE.

4. Quantum phenomena and molecular evolution.

An interesting theory suggests that quantum mechanisms play a key role in the development of mutations. See [Quantum Evolution by Johnjoe McFadden](#).

Excerpt: "...mutations on demand were termed 'adaptive mutations', as they suggested that bacterial cells could choose to mutate just those genes they needed to adapt and survive"... "The problem with adaptive mutations is that no one can figure a way that information can travel backwards from the environment to DNA, to mutate certain genes. Myself and a physicist colleague, Jim Al-Khalili, recently proposed a novel solution: that *DNA may exist in quantum states that are able to sample multiple mutational states simultaneously.* "

HIS CONCLUSION SOUNDS LIKE A BIOCOMPUTER

ALL OF THIS FITS WITH THE HINDU PRECEPT OF THE SHIVA LINGHAM (AN OVOID / ANU), THE MOST SACRED FORM IN HINDUISM, WHICH IS WORSHIPED AS BEING THE FORM THROUGH WHICH ENERGY PASSES AS IT GOES FROM FORMLESSNESS TO FORM AND VICE VERSA.

LOOKS LIKE THEY HAVE BEEN RIGHT ON FOR THE LAST 5000 YEARS!!!

RE: THE ANU BEING THE ORIGIN OF LIFE AND HAVING THOUGHTS, FEELINGS AND EMOTIONS, SHORT & LONG TERM MEMORY. IN COMING TO THAT CONCLUSION, I HAD THESE ADVANTAGES: 1) THE ANU FORMED UP WITHIN THE AETHER LOGICALLY; 2) IF WE ACCEPT THE ANCIENT SCRIPTURES STATING THAT THE ANU IS GOD – THEN IT IS VERY DIFFICULT NOT TO ACCEPT GOD AS THE ORIGIN OF LIFE – PARTICULARLY SINCE THE ANU SEEMS TO BE ALSO THE ORIGIN OF DNA – OBVIOUSLY THE ANU WAS HERE FIRST AND THUS LAYS CLAIM TO THAT SHAPE AT THE PATENT OFFICE; 3) MEMORIES ARE IMPRINTED ON ANUs – THAT IS FAIRLY WELL ESTABLISHED IN THE “MEMORIES & KARMA ARE MADE OF THIS” ESSAY; 4) THE BACKSTER / BAXTER EFFECT. THE FOREMOST LIE DETECTOR (POLYGRAPH) EXPERT IN THE U.S., CLEVE BACKSTER, TESTED HIS HOUSE PLANTS FOR OVER 35 YEARS AND DISCOVERED THAT THEY HAD AWARENESS THE EXTENDED WELL BEYOND THE ROOM, AS WELL AS THOUGHTS, FEELINGS AND EMOTIONS, SHORT & LONG TERM MEMORY. HE WENT ON TO TEST SUPPOSED INANIMATE OBJECTS LIKE THE TWO SLIVER COINS SHOW BELOW WITH THEIR AURA PHOTOGRAPHED.

THE RESULTS OF THE BACKSTER / BAXTER EFFECT STUDIES ON INANIMATE OBJECTS IS NOT TALKED ABOUT VERY MUCH AT ALL. BUT, SHIRLEY MacLAINE IN HER FAMOUS BOOK, “OUT ON A LIMB”, PUT IT QUITE WELL I.E. THAT ALIENS ON VISITING EARTH FOR THE FIRST TIME – THEY USUALLY CONSULT THE ROCKS FOR INFORMATION ON HOW THIS PLANET WORKS.!!!

TREAT ALL THINGS AS GOD – BECAUSE THEY ARE.

<http://ufoexperiences.blogspot.com/2007/08/orbs.html> **THIS WHOLE ORB / ANU STORY IS ON THIS WEB SITE**

August 21, 2007

ORBS

Is this the proof that spirits DO exist?

At first, it seemed no more than a curious coincidence. Professor Klaus Heinemann, a researcher for NASA, the U.S. space agency, was studying a collection of photographs his wife had taken at a gathering of spiritual healers when he noticed that many of them featured the same pale but clearly defined circle of light, like a miniature moon, hovering above some of the subjects.

Like most rational people, he assumed that the pictures were faulty. 'I presumed the circles were due to dust particles, flash anomalies, water particles and so on,' says Prof Heinemann.

'But I was sufficiently intrigued that I returned to the room in which the pictures were taken, in the hope of finding an explanation - like a mirror in the background. None was forthcoming.'

Nor could he find any faults with his wife's camera. And as a scientist with considerable experience in sophisticated microscope techniques - examining matter down to atomic levels of optical resolution - his methods were nothing if not rigorous.

Still puzzled, Heinemann set out to discover what else might have caused the mysterious circles. He and his wife began taking hundreds of digital photographs at random events to see whether they could recreate the mysterious effect.

The answer was that they could make these shimmering 'orbs' appear again, but only - absurd as it may sound - if they 'asked' the apparitions to make themselves visible to the camera. And they found this method worked particularly well when the couple photographed spiritual gatherings.

What on earth was going on? Again, a maverick technical glitch seemed the obvious answer. Such anomalies happen frequently in digital photography. If you accidentally jog a camera while a picture is being taken, especially in dim light, you can easily get a double image.

But again, Prof Heinemann ruled out a technical fault. 'We were quickly able to eliminate the common problems associated with photography - such as dust particles, water droplets, reflections and a host of other likely causes.'

Yet the orbs still kept appearing. And the more images he took, the more he was able to study the bizarre properties of these shimmering lights.

Heinemann set up dozens of experiments using two cameras on static tripods under controlled conditions. His early experiments found that orbs can move very fast, up to 500mph or more.

Heinemann also found that during his numerous dual camera experiments, when he used twin cameras to capture an object from two different angles, a single orb shape would often appear - but only in one of the two images taken simultaneously.

It was as if the orbs somehow chose which camera to appear on, or whether to appear at all.

Eventually, Heinemann was left with only one conclusion: that he was witnessing some form of paranormal intelligence.

I THINK WE'VE BEAT THIS HORSE TO DEATH. NOW THE "**LIGHT OF LIFE**"
– THE ENERGY THAT ANIMATES DNA IS SUPER CONDUCTING ENERGY –
PHOTONS / ANUs – 2-D ENERGY. THE EVIDENCE OF THAT IS
MOUNTAINOUS – WITH LUCK I'LL GET TIME TO WRITE IT UP.
